GitHub: Hemanth-205 | **Location:** Puducherry

SUMMARY PROFILE

Passionate Information Technology student with a keen interest in frontend development and creating user-focused digital experiences. Proficient in Java, C, HTML, CSS, and JavaScript, with hands-on experience in building responsive and interactive web applications. Skilled in using Figma for UI/UX design and prototyping. Solid understanding of programming fundamentals. Passionate about translating ideas into visually appealing and functional digital experiences with a focus on performance and usability.

EDUCATION

Seventh Day Adventist Hr Sec School, Puducherry

- HSC : 73%

Manakula Vinayagar Institute of Technology, Puducherry

- B.Tech - Information Technology CGPA : 8.5

SKILLS

- **Programming Language:** Java, C
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Databases:** SQL
- **Tools:** Figma, Canva, Power BI, UiPath Studio

AREA OF INTEREST

- Database Management Systems
- Web Technology
- Object-Oriented Programming

INTERNSHIP

MOTION CUT (February 2025 - March 2025)

ROLE: Frontend Developer

NEXTGEN SOLUTION (June 2025 - July 2025)

ROLE: Data Analyst

PROJECTS

IR-Based Home Appliances Control System

Technologies Used: Arduino, IR Sensor, Embedded C

Designed and implemented a system to control home appliances using an IR remote. Utilized an IR sensor to receive remote signals and an Arduino microcontroller to process commands, enabling users to toggle appliances like lights and fans. Focused on automation, energy efficiency, and ease of use for smart home applications.

Medical History Management Website

Technologies Used: HTML, CSS, JavaScript

MedHistory is a modern personal health record and medical history management platform designed to empower individuals and healthcare providers. It offers a secure, centralized portal to organize, visualize, and share comprehensive health data including lab reports, prescriptions, and longitudinal vitals-tracking—all secured with bank-grade encryption. Built as a high-performance Progressive Web App (PWA), MedHistory ensures universal accessibility and seamless clinical access when needed

RESEARCH PUBLICATIONS

Big Data Privacy and Security in Data Analytics: A Review on Issues, Challenges, and Privacy- Preserving Methods

Published a research paper in IRJASH, Vol. 07, Issue 02, 2025 (DOI: 10.47392/IRJASH.2025.011), focusing on Big Data privacy and security challenges. Reviewed solutions like K-anonymity, L- diversity, and T-closeness, and assessed security practices by IBM, Microsoft, and Infosys.

Integrating Multimedia Technologies in Smart Cities: Advancing Surveillance and Interactive Digital Signage for Urban Efficiency.

Submitted a research paper to International Conference on Computational Intelligence (ICCI-2025), exploring the integration of multimedia and IoT for real-time surveillance and digital signage in urban environments. Focused on enhancing urban safety, communication, and data-driven efficiency

CERTIFICATION

- Honors Diploma in Computer Programming, SARVA I.T & Educational Development
- Completion of Power BI in SKILL NATION
- Completion of Java in Spoken Tutorial Project, IIT Bombay
- Completion of PHP and MySQL in Spoken Tutorial Project, IIT Bombay
- Completion of Frontend Development in DATANERDZ.AI
- Completion of RPA Design and Development v4.0, UiPath
- Completion of Automation Developer Associate Training (v2024.10), ICT Academy Cohort 2
